

EXPERIENTIAL LEARNING

The General Health Education Workshop

Thursday, March 5 - 1:30pm

Students will build knowledge, skills, and positive attitudes about health. This workshop will teach students about their physical, mental, emotional and social health. The goal is that students will improve and maintain their health by keeping up with regular health screenings/checkups to prevent disease, and reduce current health concerns.

Scavenger Hunt

Thursday, March 12 - 1:30pm

Students are given a questionnaire to find out how much they know about the BEOC. This workshop will help students actively learn about the BEOC in a fun and entertaining way.

Student Talk

Monday, May 18 - 5:00pm / Tuesday, May 19 - 1:30pm

Student Talk is a group discussion among students and advisors. It allows students the opportunity to talk about their BEOC experiences including: Advisement activities, classwork, instructors, staff, resources, classmate, etc.

This session will create a platform for students and advisors to reflect on the positive and challenging experiences, while finding ways to implement changes that they can control in the future. There will be a survey at the end of the session.
