Information for students: In-person classes for Fall 2021

BEOC is closed to the public.

During the Fall 2021 semester, the Center will have onsite classes for Medical Assisting and Direct Support Professional students. The classes are for hands-on practice that cannot be conducted virtually.

These are the general requirements for students attending in-person classes at BEOC:

- Only students with scheduled in-person classes are allowed onsite
- In-person classes for Medical Assisting students are scheduled to begin on September 20 for first semester students and in October for second semester students
- Students attending in-person classes should be fully vaccinated
- Students who are not fully vaccinated or are unable to be vaccinated due to medical or religious reasons will have to be tested weekly
- Instructions on how to upload vaccination results or request an exemption from vaccination will be provided directly to students by email or postings in Schoology, the student learning management system

Students will receive course specific information from their instructors.
